

FOR IMMEDIATE RELEASE:

World Micro Completes Acquisition of Falcon Solutions

Atlanta, GA, March 11, 2008 – Georgia's largest Independent Electronics Distributor, World Micro, Inc., today announced the acquisition of Falcon Solutions, LLC, a leading national Independent Distributor serving major Tier 1 Customers. The board of directors of each company has unanimously approved the acquisition. World Micro President, Dan Ellsworth, cited, "This is an exciting time for World Micro to take advantage of the synergies and strategic vision both organizations share. In Today's distribution environment it is absolutely imperative that differentiation comes in the form of World Class distribution providing absolute Best-in-Class Quality standards. We now have the capability to project a global footprint in support of our key customers and manufacturers in the Independent Distribution Channel."

Both organizations bring significant levels of expertise from corporate management experience to advanced logistics, warehousing and quality processes. Falcon Executive Vice President and co-founder, Brad Waldrop, when addressing Quality of Service to Tier-1 customers Falcon currently serves, explains, "Our business is fundamentally based on trust and relationships. While this is a primary ingredient to success it will only come with superior distribution services in support of Best in Class operational and quality process control. In a world of challenging parts supply, it's paramount to remove the angst associated with varying supply channels and the integrity of products."

Combined locations provide Sales presence in Mexico, California, Alabama and Georgia, along with a unique Manufacturer Representative Program covering the majority of North America. Both companies are ISO 9001:2000 Certified along with numerous industry associations, certifications and accreditations. The companies will move into a World-Class Distribution Center and Headquarter facility that opens April of 2008. All key employees and customer relationships will remain in place.

ABOUT: World Micro, Inc. is headquartered in Atlanta, GA with sales offices and distribution centers in multiple locations. Founded in 1995, World Micro serves the new and emergent OEM, CM and EMS marketplace with extensive support to established key OEM customers. A comprehensive suite of product offerings and dedicated support services provides solutions through the entire product life cycle.

ABOUT: Falcon Solutions, LLC was founded in 2001 and has served primarily Tier-1 CM, EMS and OEM customers, both domestically and globally, from its Roswell, GA headquarters and distribution center. Falcon's World-Class Quality and Distribution program meets or exceeds the stringent demands of its Tier 1 customer base.
